SERIES

**COVID-19 Event Guidelines**  
**Brian Piccolo and Vista View parks**  
**Sanctioned by USA Cycling**

**INTRODUCTION**

The purpose of this plan is to develop, implement and enforce appropriate procedures, in accordance with Federal, State, and local regulations to safely operate cycling events. The principles and considerations in this document were compiled from recommendations made by USA Cycling who is governing body for the sport of cycling in the United States and the local regulatory agencies in which the event is held.

These procedures are designed for the return to cycling events as it was requested by Broward County Parks and Recreation Division. As a result, these procedures are based on the knowledge that some carriers of COVID-19 show no symptoms. With that in mind, it is important to encourage frequent and effective hand washing, advise staff and participants to wear masks/ face coverings, enact an effective sanitation program (using chemicals effective against the corona virus) for high-touch surfaces, and establish programs and capacities that allow for appropriate levels of social distancing.

As community transmission rates decline these procedures may be adjusted and relaxed. It is also important to note that these procedures will change as best practices, government guidelines, and guidance from health, medical and industry professionals evolves.

**Considerations for Events:**

Allows healthy people to enjoy the cycling events and encourages the use of masks/face coverings for participants and staff.

Provide means to wash/sanitize hands frequently.

Manage density of spectators and participants within the event to keep people 6 feet (2 meters) apart.

Reduce touch areas where possible and sanitize high touch surfaces frequently.

Protect staff with various approaches, including barriers, protective coverings, and distancing.

Communicate with staff and participants effectively on how to prevent the spread of germs.

Have a plan in the event a staff or participants fall ill on site.

**GENERAL CONSIDERATIONS**

**Social Distance:**

Participants and staff will be encouraged to follow social/physical distancing guidelines carefully, maintaining 6 feet of space from others. Family members and others (a "family unit") who live in the same household can be closer together. All others will strictly adhere to the physical distancing guidelines. This will apply throughout the event, registration area, parking, awards ceremony and restrooms.

Riders will be instructed not to hug, high five, touch each other at any point before, during or after their event.

All team event tents must be at least 10 feet apart from each other. Teams may not congregate at tent areas.

Finishing riders will be instructed to exit course away from the finish line.  
Staff will serve as a safety ambassador at the exit to ensure riders do not congregate.  
Plenty of garbage cans for riders to throw away their refuse, and clean as needed.

### TEMPERATURE CHECKS

Temperature checks will be administered for all participants and spectators prior to the entry of the event venue. We will use 'No Contact Infrared Thermometers' Any person exhibiting a temperature exceeding 100 degrees will not be allowed into the venue. All participants and spectators must have a face covering on over the mouth and nose while getting their temperature checked. We will not have masks available for use.

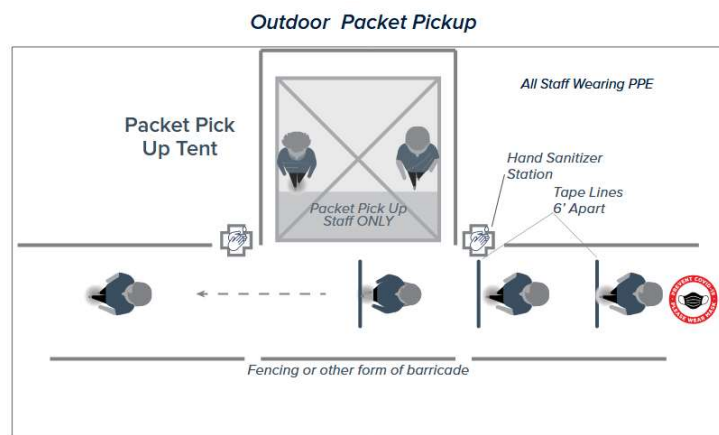

### COMMUNICATIONS - HEALTH AND SAFETY GUIDELINES

These general guidelines will be communicated through the event website and social media during the promotional campaign as well as on event day.

### PARTICIPANT & STAFF COMMUNICATIONS

Participants must pre-register online at [www.miamimasters.com](http://www.miamimasters.com) If registration available race day riders must obey packet pickup rules.

The Package pick area layout will be marked and directed in a way that minimizes contact with other participants and staff.

Participants will be advised that all staff will wear masks/face coverings while interacting with others.  
Spectators will be discouraged from attending the event, and participants will be advised to bring no more than one friend/family member with them as a spectator.  
Participants will be required to wear face coverings at the start of mass start events like criterium or road races. Once the race begins, participants will be encouraged to wear masks/face coverings, but have the option to remove the mask/face covering once the event begins. Participants will place the mask/face covering in the rear pocket of their jersey and will not be allowed to litter the course.  
Participants will be required to wear masks/face coverings while not racing if they cannot maintain social distancing.  
Participants will be advised to please not jeopardize others by coming to the event if they are feeling ill, have a fever or have been exposed to someone with Covid-19 in the past 14 days. Touchless temperature checks will be utilized if requested.  
Participants and staff will be encouraged to wash hands frequently with soap and water or use hand sanitizer.

## RACE EVENT

Only participants, mechanics and team managers will be able to enter the racing venue.

Finish Line:

Participants and other personnel will not be allowed to gather in groups at the finish line.

Participants will be encouraged to cross the finish line and proceed to an open area instead of congregating in the finish area.

As per county regulations, vendors and food trucks are not allowed at this time.

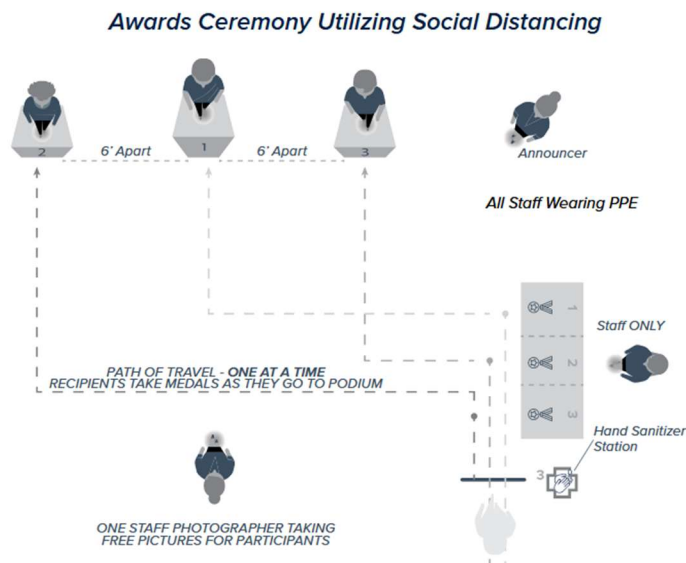

## EVENT RESULTS

Event results will not be posted on paper, but will be provided electronically to prevent athletes congregating.

## AWARDS CEREMONY

The awards ceremony will have the podiums spaced far apart and social distancing guidelines will be observed.

Participants will be required to wear a mask during the ceremony.

## EVENT MEDICAL

Race event director will be designated to handle any suspected COVID-19 cases.

Participants are advised that the first-aid kit for minor injuries will be provided, but staff will not treat.

All possible COVID-19 cases or major medical situation will require EMS by Calling 911.
